1:APPLYING FOR JOB:

```
PS C:\Users\avira\Desktop\correction> python -u "c:\Users\avira\Desktop\correction\job_analyser.py"

----- JOB PORTAL -----
1. Apply for Job
2. Recruit Applicant
3. Check Trending Skills
4. Delete Application
5. Exit
Enter choice: 1
Enter your name: atharv
Enter your experience (years): 3
Enter contact number: 5698741235

Available Skills:
1 Python
2 Java
3 C++
4 SQL
5 Machine Learning
6 Data Science
7 Web Development
8 Android Development
9 Cloud Computing
10 Cyber Security
11 AI
12 Data Analysis
13 React
14 Node.js
15 DevOps
16 Blockchain
17 UI/UX Design
18 Networking
19 Software Testing
20 Django

Enter multiple skills (comma separated numbers, e.g. 1,3,5):
Enter choices: 1,2,3,4,5,6
Application submitted successfully
```

2.RECRUITER SEARCHING FOR APPLICANTS:

```
1. Apply for Job
2. Recruit Applicant
3. Check Trending Skills
4. Delete Application
5. Exit
Enter choice: 2

Select required skill:
1 Python
2 Java
3 C++
4 SQL
5 Machine Learning
6 Data Science
7 Web Development
8 Android Development
9 Cloud Computing
10 Cyber Security
11 AI
